Enterprise Program Manager with 15+ years leading digital transformation, portfolio governance, and large-scale execution across Fortune 100 organizations including Intuit, Oracle, Intel, Visa, and Wells Fargo. Known for translating strategy into scalable execution — building governance frameworks, operating cadences, and cross-functional stakeholder alignment that empower complex, matrixed organizations to deliver at scale. Proven strength in PMO leadership, AI adoption, and technical program management across Product, Engineering, and Business Operations.

CORE COMPETENCIES

Leadership: PMO Leadership • Executive Stakeholder Management • Cross-Functional Leadership • Org Change & Enablement
Planning & Governance: Portfolio Prioritization • Roadmapping • OKRs • Governance • Exec Reporting • Operating Model Design
Execution & Risk: Risk & Dependency Management • Decision Frameworks • Release Management • Stakeholder Alignment
Tech & AI: Technical Program Management • AI Adoption & Change Management • Cloud Transformation • Risk & Compliance
Methods & Tools: Agile • Scrum • SAFe • Kanban • Jira • Confluence • Smartsheet • Asana • Dragonboat • Claude • ChatGPT • Gemini

WORK EXPERIENCE

Enterprise Program Manager, AI Enablement & Adoption 2026 - Present Intuit (Contract)

- Driving enterprise adoption of an AI-enabled planning platform across Product, Engineering, TPM, and Business Operations by leading change management, stakeholder engagement, and training across four teams (500+ users).
- Strengthening portfolio governance and accountability by building scalable reporting, feedback, and issue-resolution processes, reducing escalation volume/cycle time.
- Operationalized the annual Operations roadmap, keeping 1000+ initiatives current, actionable, and appropriately sequenced as enterprise priorities evolved.

Senior Principal Program Manager 2021 - 2026 Oracle

- Aligned execution across 40+ global engineering organizations supporting Oracle Fusion Applications' cloud transformation by directing planning and dependency management at scale.
- Improved organizational visibility and decision velocity by establishing governance frameworks, executive reporting structures, and operating cadences, cutting decision/reporting cycle time by 50% — from 4+ weeks to a 2-week maximum turnaround.
- Accelerated standardized delivery processes across globally distributed teams by driving enterprise planning tool adoption, cutting inception-to-first-launch timelines 33–50% — from 6+ months to 3–4 months.
- Supported FedRAMP readiness by partnering with leadership across Product, Engineering, Security, Compliance, and Operations.

Senior NPI Program Manager 2020 Spatial

- Stood up a PMO function supporting startup growth by establishing governance frameworks, tooling, reporting, and operating cadences for a team of 20.
- Improved operational efficiency and NPI execution predictability by standardizing workflows and delivery processes across Product, Engineering, UX, and Marketing.

- Established a leadership reporting cadence and cross-functional decision-making forum to support an aggressive NPI timeline, driving faster executive alignment and rapid resolution of critical-path blockers.

Senior Program Manager, Digital Transformation & Strategic Programs
Intel

2016 - 2019

- Diagnosed a low-performing campaign, split the audience to A/B test a simplified landing approach, and lifted engagement 40% — adopted as Intel's global campaign landing strategy across all markets, earning GMC recognition.
- Delivered Intel's first global product catalog platform by establishing scalable delivery frameworks and cross-functional operating models.
- Directed Intel's 2018 Winter Olympics digital activation, earning GMC divisional and organizational recognition.
- Improved alignment and execution consistency across Product, Engineering, Design, and Marketing by establishing PMO structures and reporting frameworks.
- Managed digital marketing strategy from planning through execution across campaigns, customer experience, and content strategy, continuously evaluating OKRs to optimize direction and resourcing.

Earlier Program Management

2008 - 2014

- Razorfish, MRM, McCann Worldgroup, Publicis, Scient, and a contract engagement with Visa — program management roles spanning digital, marketing, and enterprise operations.

RECOGNITION

Four GMC divisional and organizational recognitions at Intel (2018–2019) for digital marketing strategy, campaign innovation, and content integration — including Intel's first brand activation at the 2018 Olympic Winter Games.

EDUCATION

Bachelor of Science, Business Administration, Management and Operations
California State University, Fresno
