Professional Summary

Senior program leader with 15+ years delivering enterprise platforms, transformation, and cross-functional programs across technology and financial services. Directed planning and dependency management across 40+ global engineering organizations at Oracle, cutting decision and reporting cycle time by 50%. At Intuit, lead AI-enabled planning-platform adoption across four teams and 500+ users, with MCP-based audits and execution-health dashboards supporting accountability across 1,000+ initiatives.

Core Skills

Program Leadership: Program and Portfolio Management, Technical Program Management, PMO Leadership, Cross-Functional Workstream Management, Executive Reporting, Stakeholder Alignment

Planning and Delivery: Enterprise Platform Implementation, Portfolio Governance, Roadmapping, Risk and Dependency Management, Change Management, User Adoption, Training and Enablement

Tools and Methods: Dragonboat, Jira, Confluence, Smartsheet, Asana, Model Context Protocol (MCP), User Acceptance Testing (UAT), Agile, Scrum, SAFe

Professional Experience

Enterprise Program Manager, AI Enablement and Adoption

Intuit (Contract) | May 2026 - Present | Remote - Santa Barbara, CA

- Operationalized the annual Operations roadmap, managing priorities, milestones, and dependencies across 1,000+ initiatives as enterprise needs evolved.
- Drive adoption of an AI-enabled planning platform across Product, Engineering, TPM, and Business Operations, leading change management, stakeholder engagement, and training across four teams and 500+ users.
- Built MCP-based audits, execution-health dashboards, and issue-resolution processes to strengthen portfolio governance and accountability and reduce escalation volume and cycle time.
- Established weekly status reviews to surface risks and dependencies and drive owner follow-through; support Jira linkage across workstreams, initiatives, and epics and UAT for an MCP write-based pilot.

Senior Principal Program Manager

Oracle | February 2021 - April 2026 | Remote - San Francisco, CA & Santa Barbara, CA

- Directed planning and dependency management across 40+ global engineering organizations supporting the Oracle Fusion Applications cloud transformation.
- Established governance frameworks, executive reporting, and operating cadences that cut decision and reporting cycle time by 50%, from 4+ weeks to a two-week maximum.
- Drove enterprise planning-tool adoption and standardized delivery processes, reducing inception-to-first-launch timelines by 33-50%, from 6+ months to 3-4 months.
- Supported FedRAMP readiness through collaboration with Product, Engineering, Security, Compliance, and Operations leadership.

Professional Experience Continued

Senior New Product Introduction Program Manager

Spatial, Inc. | January 2020 - December 2020 | Emeryville, CA

- Established a PMO supporting a team of 20, including governance frameworks, tooling, reporting, and operating cadences.
- Standardized NPI workstreams across Product, Engineering, UX, and Marketing; established leadership reporting and decision forums to track milestones and resolve critical-path blockers.

Senior Program Manager, Digital Transformation and Strategic Programs

Intel | March 2016 - September 2019 | Santa Clara, CA & Hillsboro, OR

- Increased campaign engagement by 40% through an A/B-tested landing approach that was adopted as Intel's global campaign landing strategy across all markets.
- Delivered Intel's first global product catalog platform, coordinating cross-functional implementation through delivery frameworks and operating models.
- Directed Intel's 2018 Winter Olympics digital activation, earning GMC divisional and organizational recognition.
- Established PMO structures and reporting frameworks to align Product, Engineering, Design, and Marketing across global digital programs.

Implementation Lead

Wells Fargo (Contract) | January 2014 - January 2016 | San Francisco, CA

- Delivered an enterprise benefits enrollment platform, coordinating implementation across digital, technology, operations, and business stakeholders.
- Established implementation governance, reporting, and delivery processes to improve milestone visibility and execution consistency.

Senior Program Manager, Digital Transformation and Strategic Programs

Visa (Contract) | January 2012 - January 2014 | Foster City, CA

- Led the Visa.com global redesign across business and technology organizations, aligning Product, Design, Engineering, and executive stakeholders.
- Established content governance and release management processes supporting scalable digital operations.

Program Manager

Razorfish, MRM, McCann Worldgroup, Publicis, Scient | 2008 - 2012

Program management roles spanning digital, marketing, and enterprise operations.

Recognition

Four Intel GMC divisional and organizational recognitions (2018-2019) for digital marketing strategy, campaign innovation, and content integration.

Education

Bachelor of Science, Business Administration, Management and Operations

California State University, Fresno
